HOW TO USE THIS PDF

2 Sided Printers:
These projects can be printed with a two sided printer to make the backs more decorative. Simply set your printer to double sided printers and print the entire file or each craft separately.

1 Sided Printers:
If you will be using a one-sided printer, print only the first page of each craft and the corresponding instruction page. If you would like the projects double sided, you can print both sides and paste them together before starting.

Bouncing Butterflies

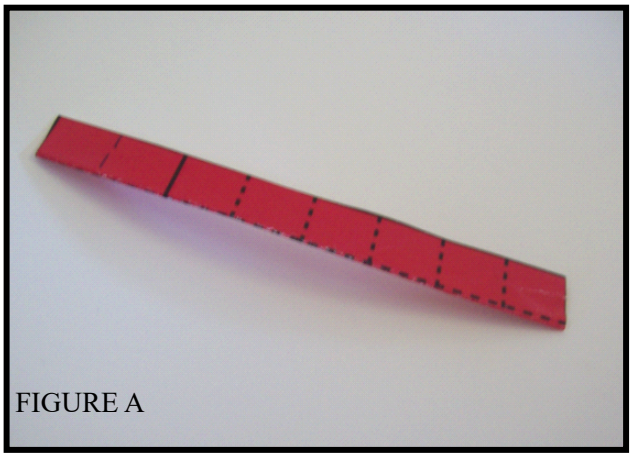

FIGURE A

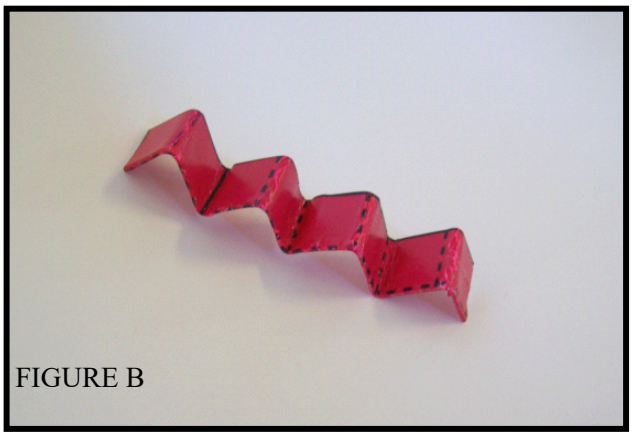

FIGURE B

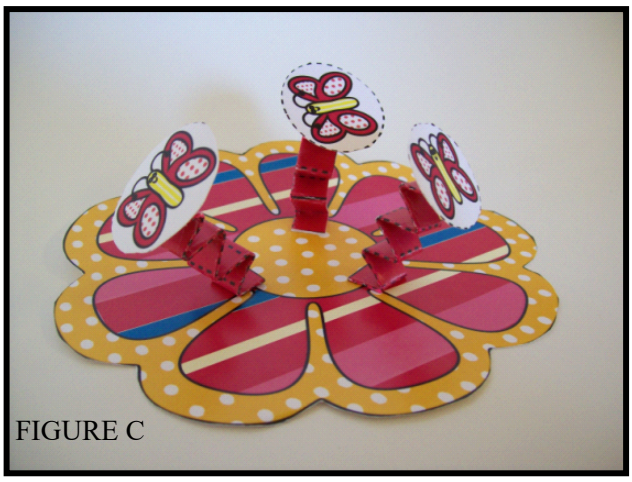

FIGURE C

Instructions for page 3

1) Cut out the flower, butterflies, & three risers.
2) Fold each riser long ways down the center at the dotted line so dotted lines are facing out and glue the inside closed. (See figure A)
3) Glue bottom of flower to a heavier base to make it more rigid. (Ex: You can use a post card or cardboard from the side of a cereal box). Then trim off the excess around the edge of the flower.
4) **Once the glued risers are dry**, fold each dotted line back and forth. (See figure B)
5) Glue one end of each riser to the flower a couple of inches apart.
6) Glue butterflies to the top of each riser. (See figure C)

Funky Door Hangers

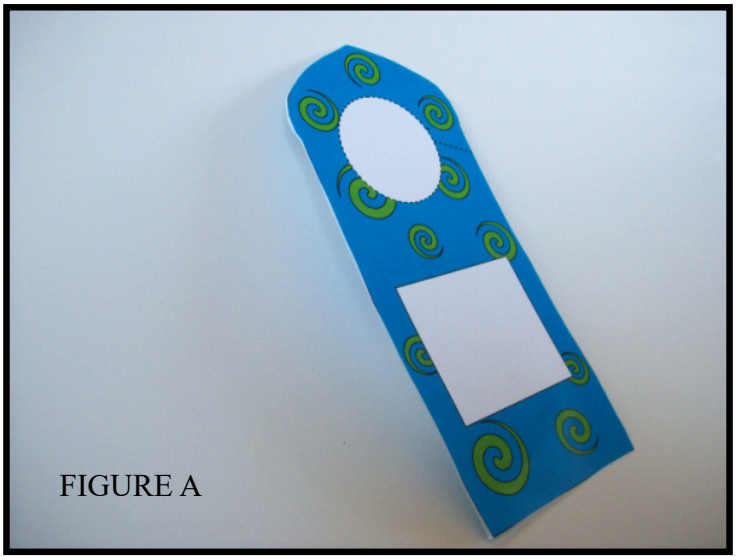

FIGURE A

Instructions for page 7

1) Cut around edges of door hangers.
2) Cut up dotted line and cut out circle.
3) Cut out phrases, including the one on this page.
4) Glue one phrase to each side in the white squares. (See figures A and B)

FIGURE B

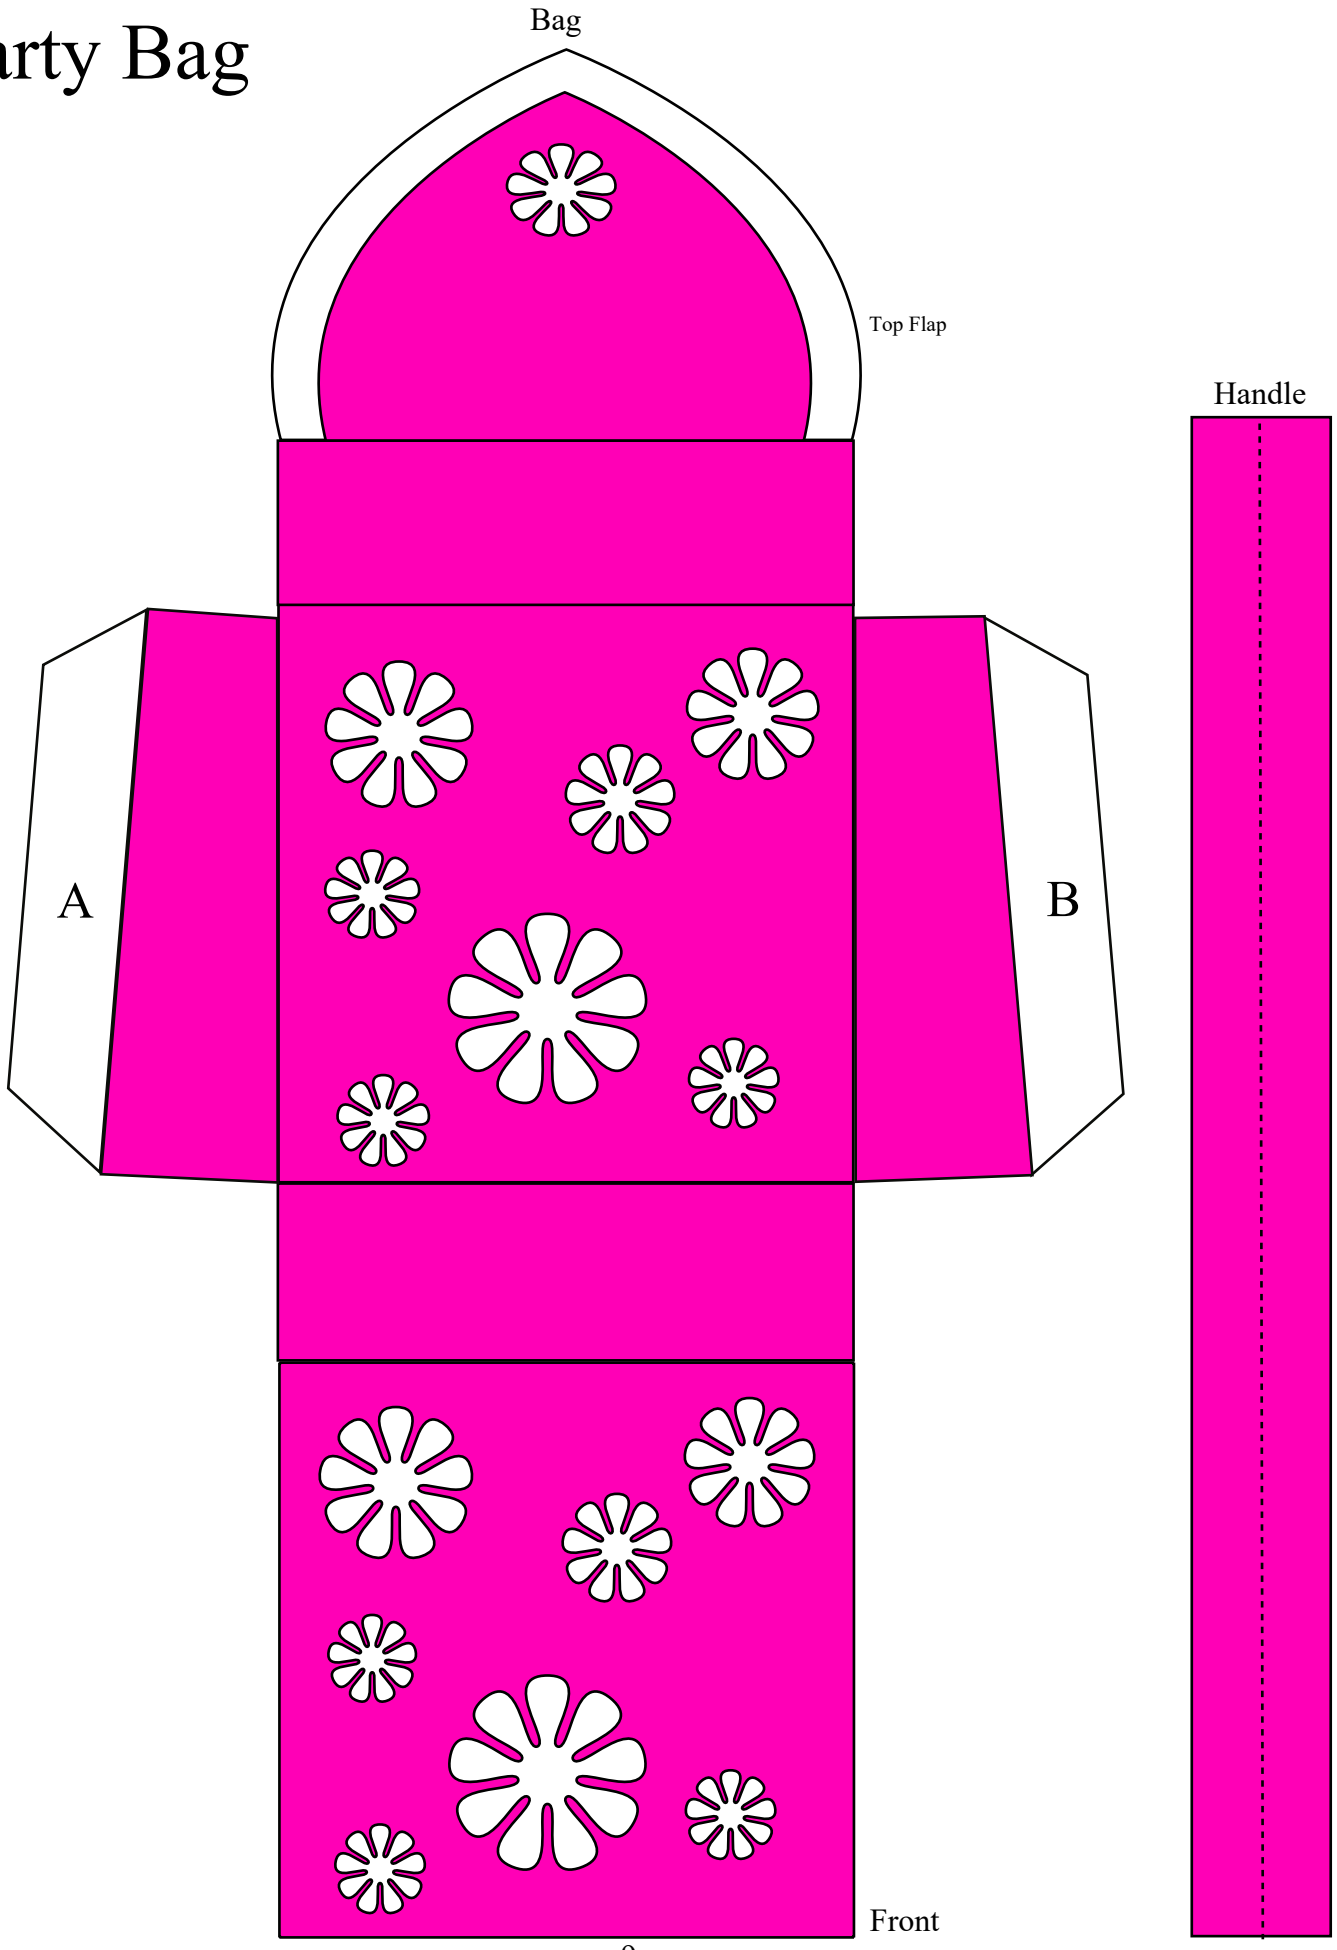
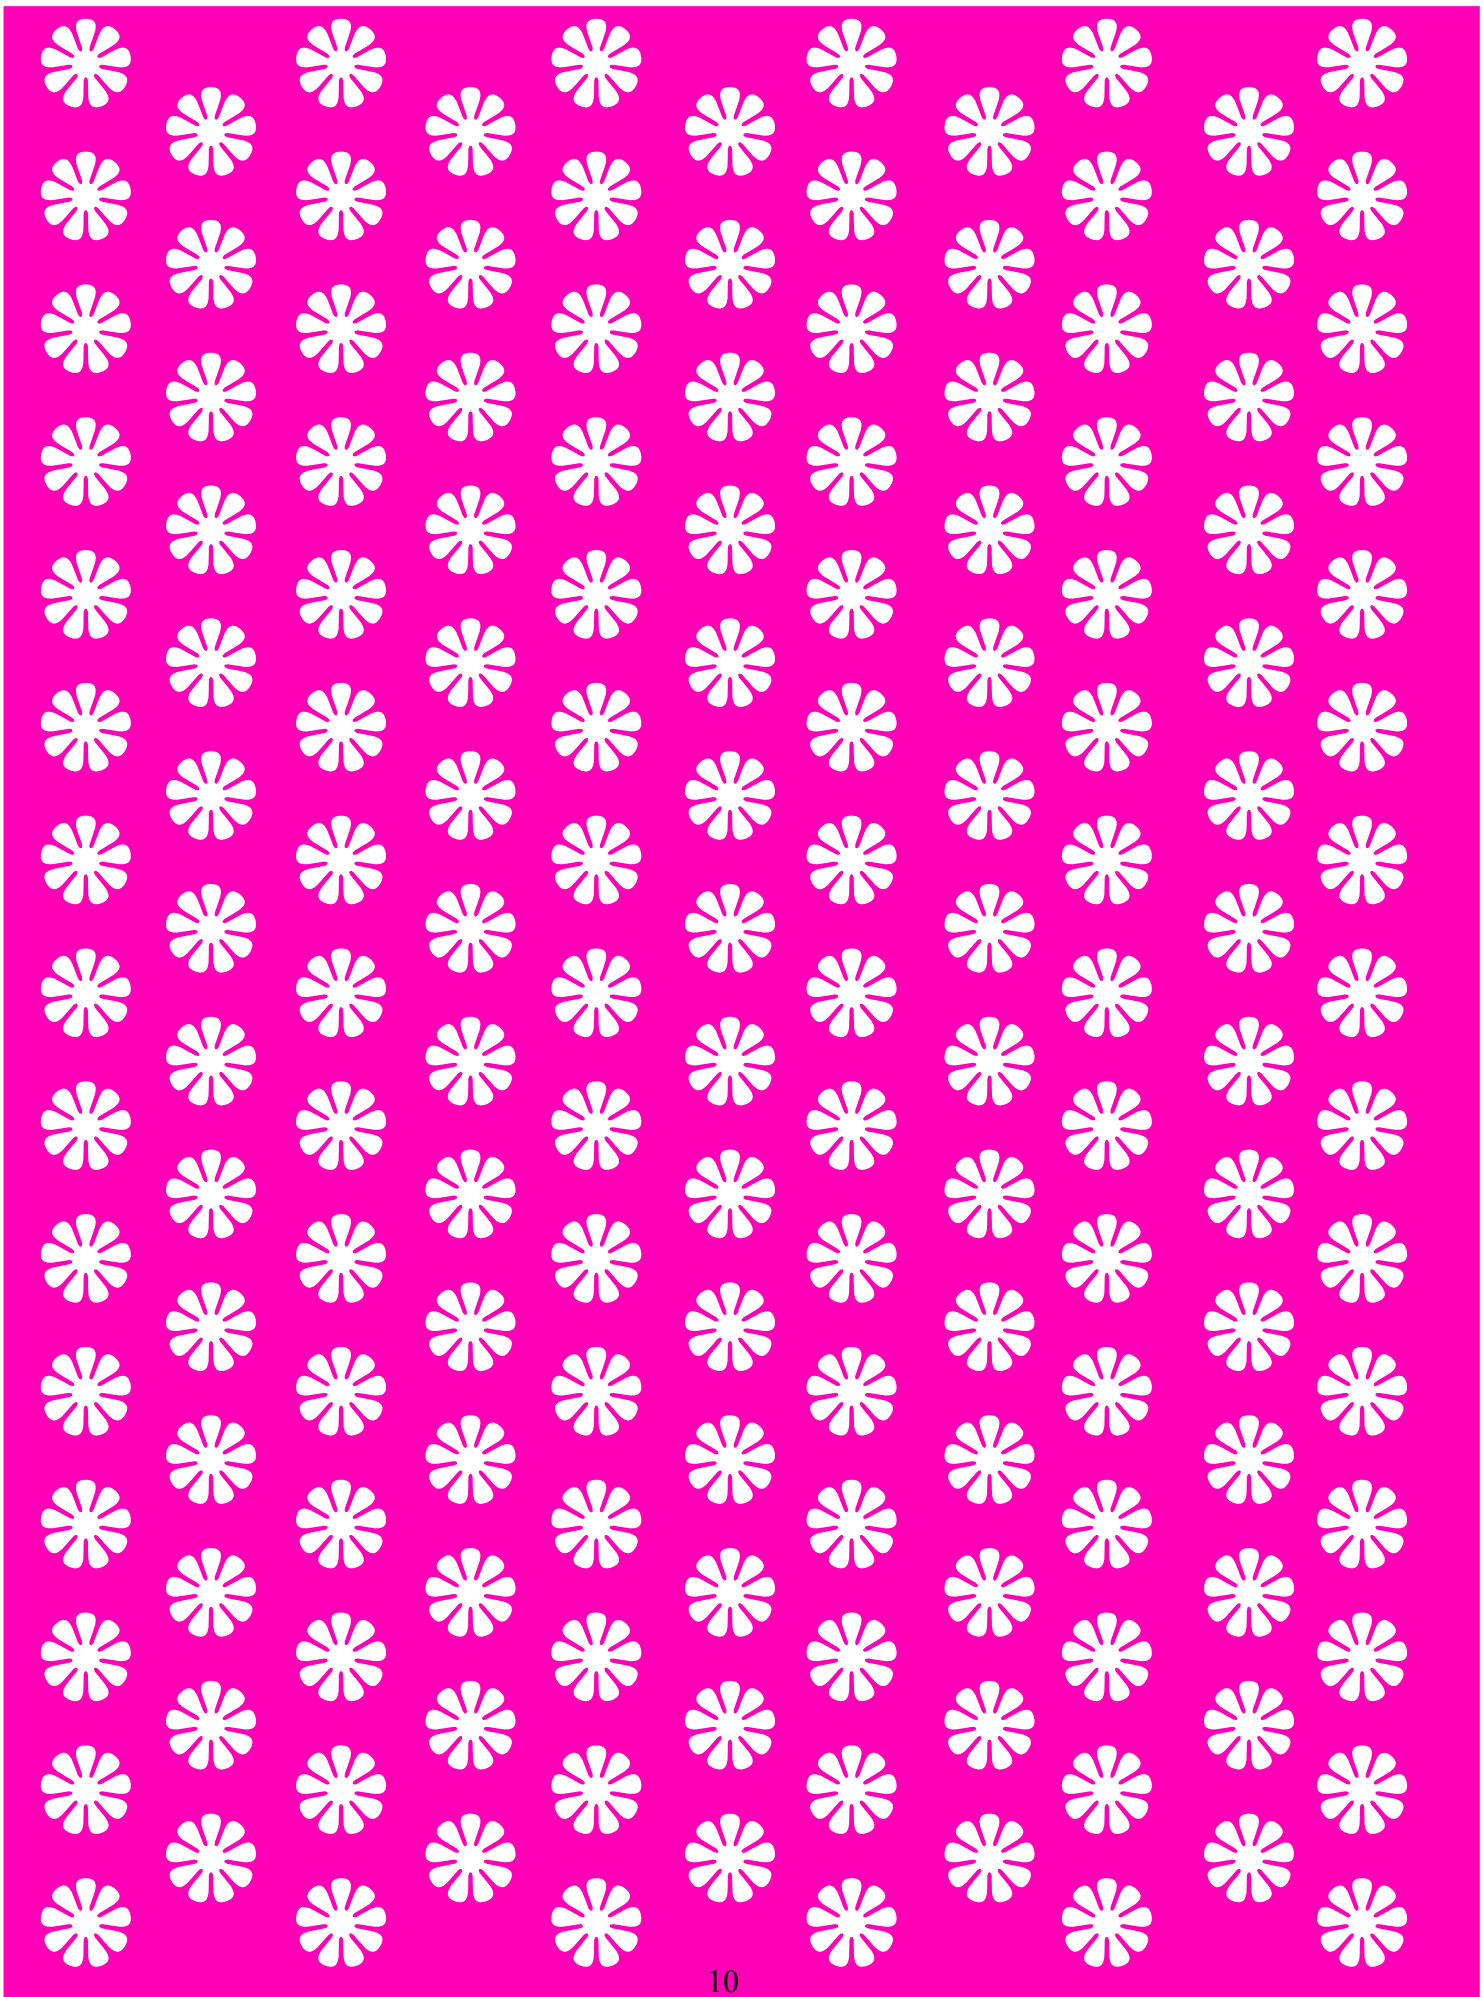
Party Bag



www.SolveLearningDisabilities.com



www.SolveLearningDisabilities.com

Party Bag

Instructions for page 9

1) Cut out around the outer edge of the entire bag, leaving in one piece.
2) Cut out handle.
3) Fold handle long-way on dotted line so colored side is out. Glue closed.
4) Fold bag at all lines, except the top flap, so pattern is on the outside. (See figure A)
5) Glue tab A and B to inside of bag front to form the bag.
6) Fold top flap over.
7) Glue handle on the inside of the two sides of the bag. (See figure B)

Treat Sack

Instructions for page 13

1. Cut out all items.

2. Roll or fold up paper stick pieces from one long side to the other to create sticks to glue flowers to. You can use straws instead. (See Figure A)

3. Glue flowers at the top of each stick and let dry.

4. Fold and crease all four sides upward to form bag. (See Figure B)

5. Fold all four tabs inward at line and glue to the inside of the sack side that is next to it, to create a sack. (See Figure C & D)

6. Put something in the sack, such as jelly beans, a treat or wrinkled up tissue paper pieces to fill the sack. (See Figure D)

7. Put the sticks with flowers in the bag and push down to the bottom of the bag, letting the contents of the bag hold them upright. (See Figure E)

www.SolveLearningDisabilities.com

Owl Wall Hanger

Instructions for page 15

1) Cut out eyes, beak, body and feet.
2) Glue the owl body to something thicker like some poster board or the cardboard from the side of a cereal box, then trim around the body. This will make it stronger for hanging.
3) Cut out as many rows of feathers as desired.
4) Fold feather tops back at dotted line. (See Figure A)
5) Fold beak at line. Glue Eyes, beak and feet to body. (See Figure B)
6) Glue the feathers to the owl by applying glue to the folded back tops and pressing it against the owls stomach, leaving the feather bottoms poking outward. (See Figure C)
7) For hanging, attach a string to the dots on the ears by gluing. Or, puncture a hole at the dots and tie string through the hole. Hang. (See Figure D)

Teepee and Friends

Instructions for page 19

1) Cut out all 7 items on the page.
2) Glue one end of the rocks to the other end to form a circle.
3) Glue one side of each teepee to other side. (See figure A)
4) Cut slits on dotted lines in the bottom of the doggie, people, and fire.
5) Slide the rock circle into the two fire slits to make a stand.
6) On the doggie & people, bend middle flap backwards and outer flaps forward to create a stand. (See figure B and C)

Colorful Turtle

Instructions for page 21

1) Cut out all items.
2) Fold legs back and forth at dotted lines. (See Figure A)
3) Glue the designed tiles onto the turtle's back. (See Figure B)
4) Glue turtle's head and tail to the underneath of the shell.
5) Glue turtle's legs to the underneath of the shell. (See Figure C)

Wiggle Frog

Instructions for page 25

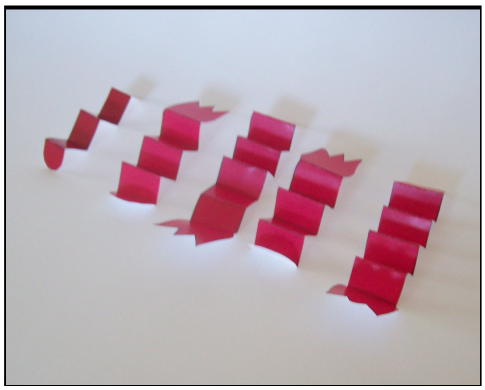

Figure A

1) Cut out the frog's body, legs, arms, flies, and the tongue.
2) Glue frog to something more rigid for strength, like cardboard from a cereal or mac 'n' cheese box, then trim around body and head.
3) Bend the arms, legs and tongue back and forth on the dotted lines. (See Figure A)
4) Glue the legs and arms onto the frog. Glue the tongue to the mouth.
5) Glue one fly to the end of the frog's tongue.
6) Glue a string on the back of the frog. The small circle on the frog's tummy shows where the string should be glued on the back. (See Figure B)
7) Take the two other flies and glue strings to the back of them.
8) Hang the frog and the two other flies to the ceiling. (We like to make it look like the frog is chasing the flies.)

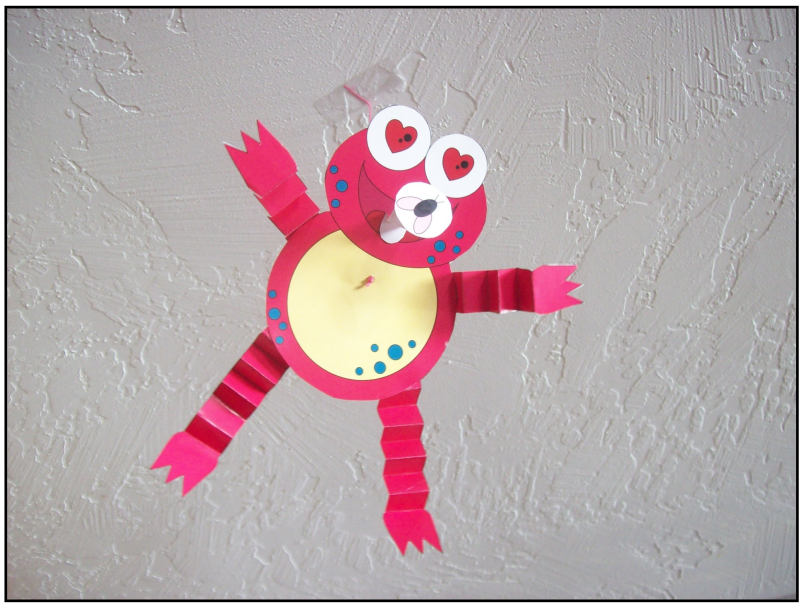

Figure B

www.SolveLearningDisabilities.com

NOTE: It is best if the body of the frog is glued to something thicker like a piece of cardboard from a cereal box.

Mini Book Bag

Instructions for page 27

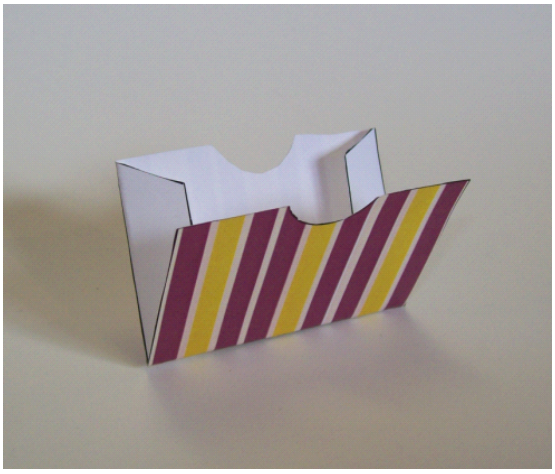

FIGURE A

1) Cut out all items.
2) Fold tab A and B of the book bag backwards.
3) Fold back of bag upwards and glue to tabs A and B. (See figure A)
4) Glue handles on book bag (See figure C)
5) Fold pages and covers in half at dotted lines. Staple or glue the center of the pages to the center of the book covers along dotted lines. (See figure B)
6) When finished, put books in bag.

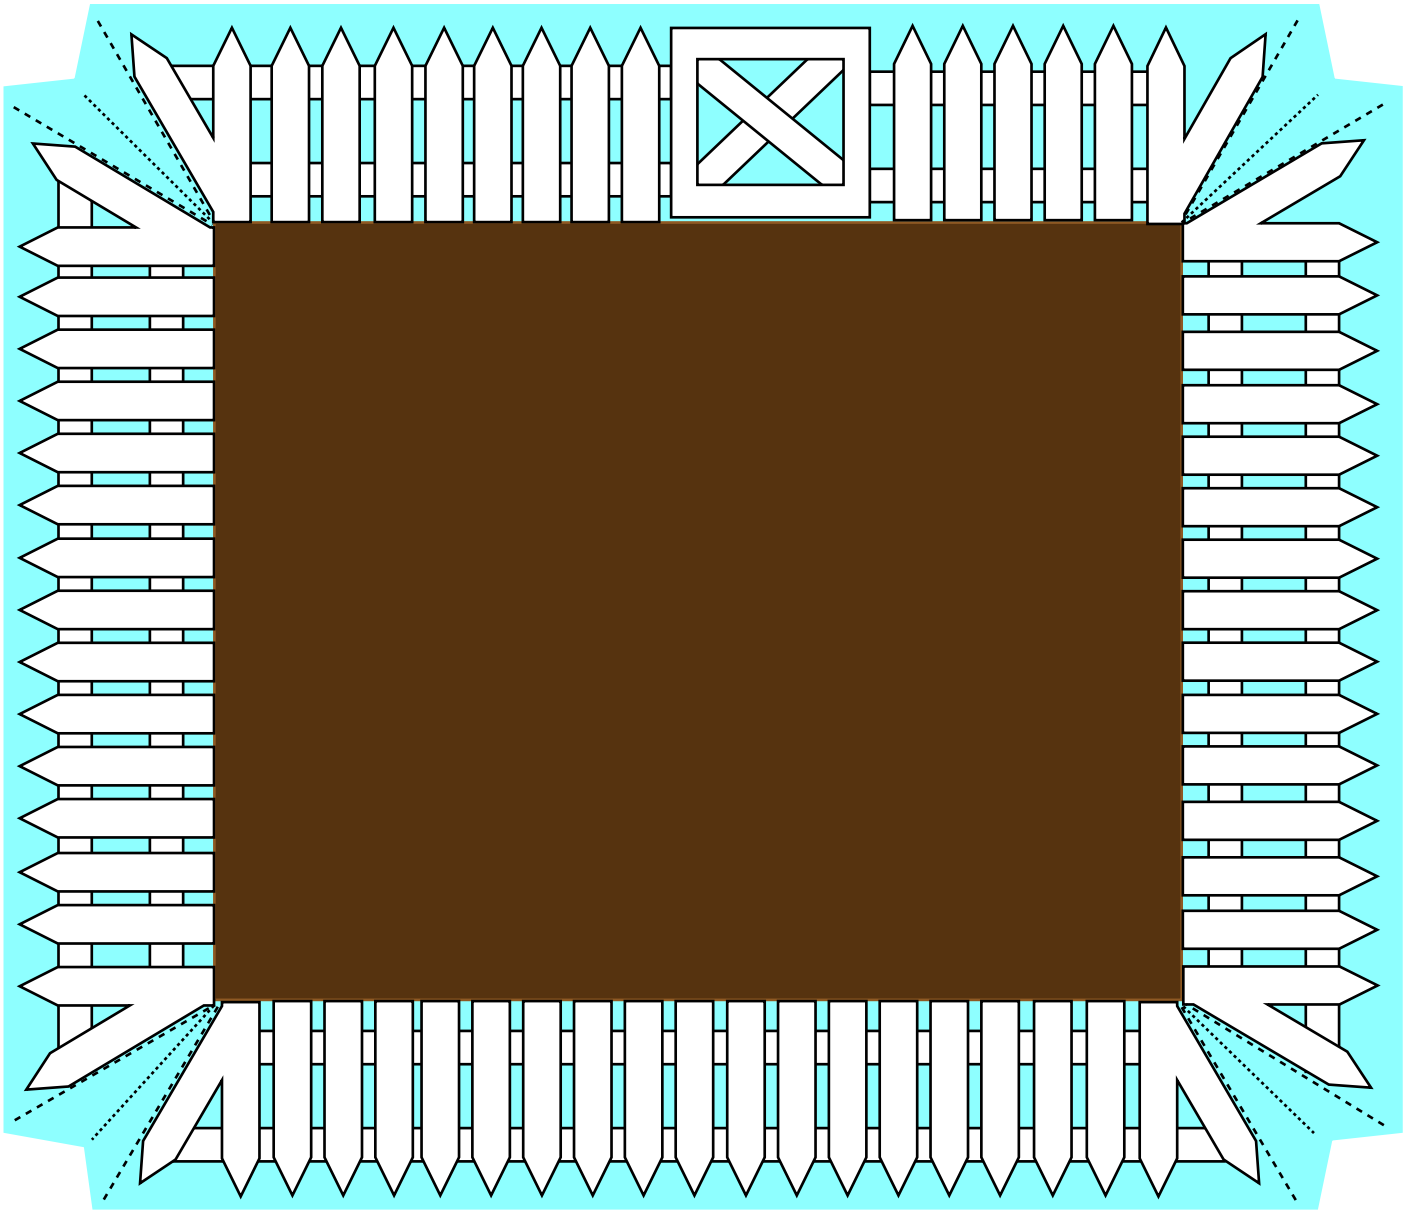
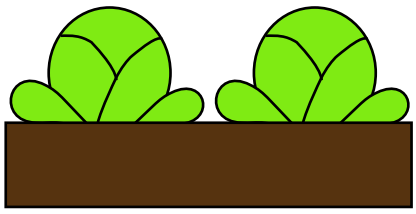
My Garden

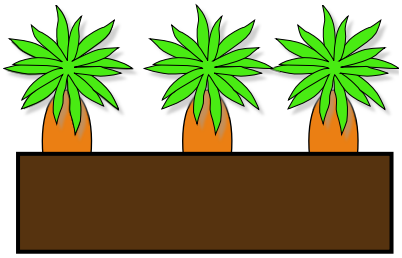
Instructions on Back

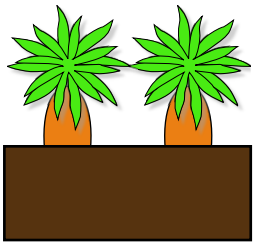
Example

www.SolveLearningDisabilities.com



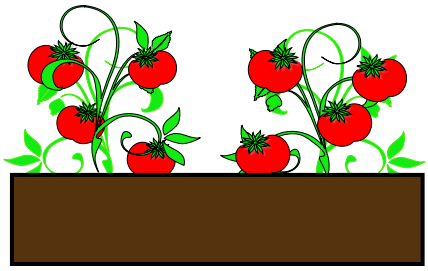


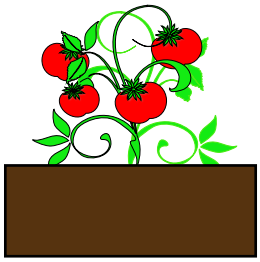




Instructions

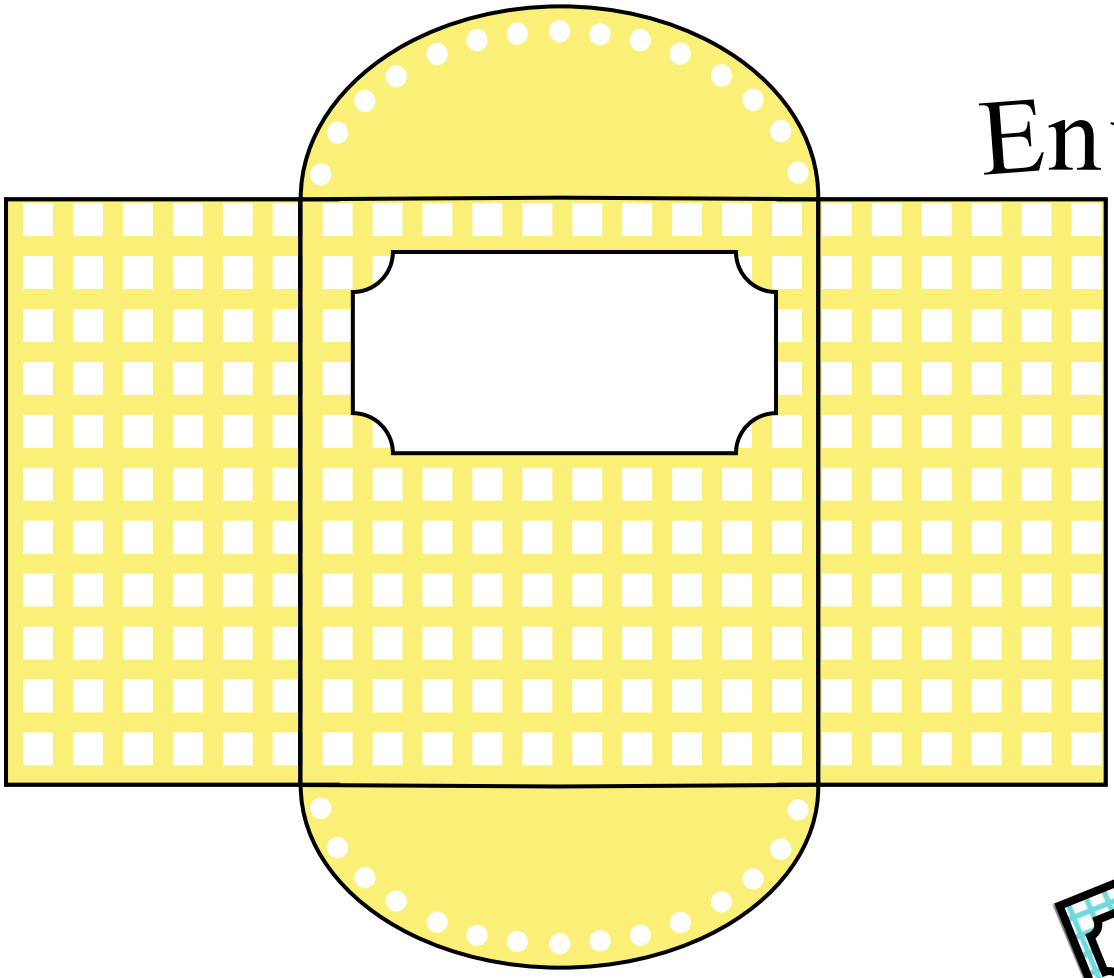
1. Cut out garden and fold sides upward by creasing between fence and brown dirt.
2. Fold and glue garden corners to a frame like shape.
3. Cut veggies and fold tabs back.
4. Glue to garden where desired by applying glue to bottom of tabs.
5. Bend veggies upward.
   (See photo on page 33)



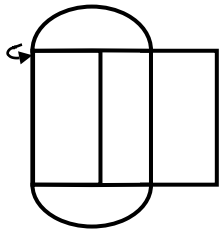


www.SolveLearningDisabilities.com

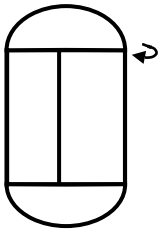
Pocket Envelopes



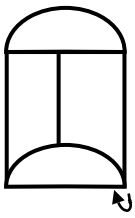
1. Cut out, turn over and fold 1st flap in.

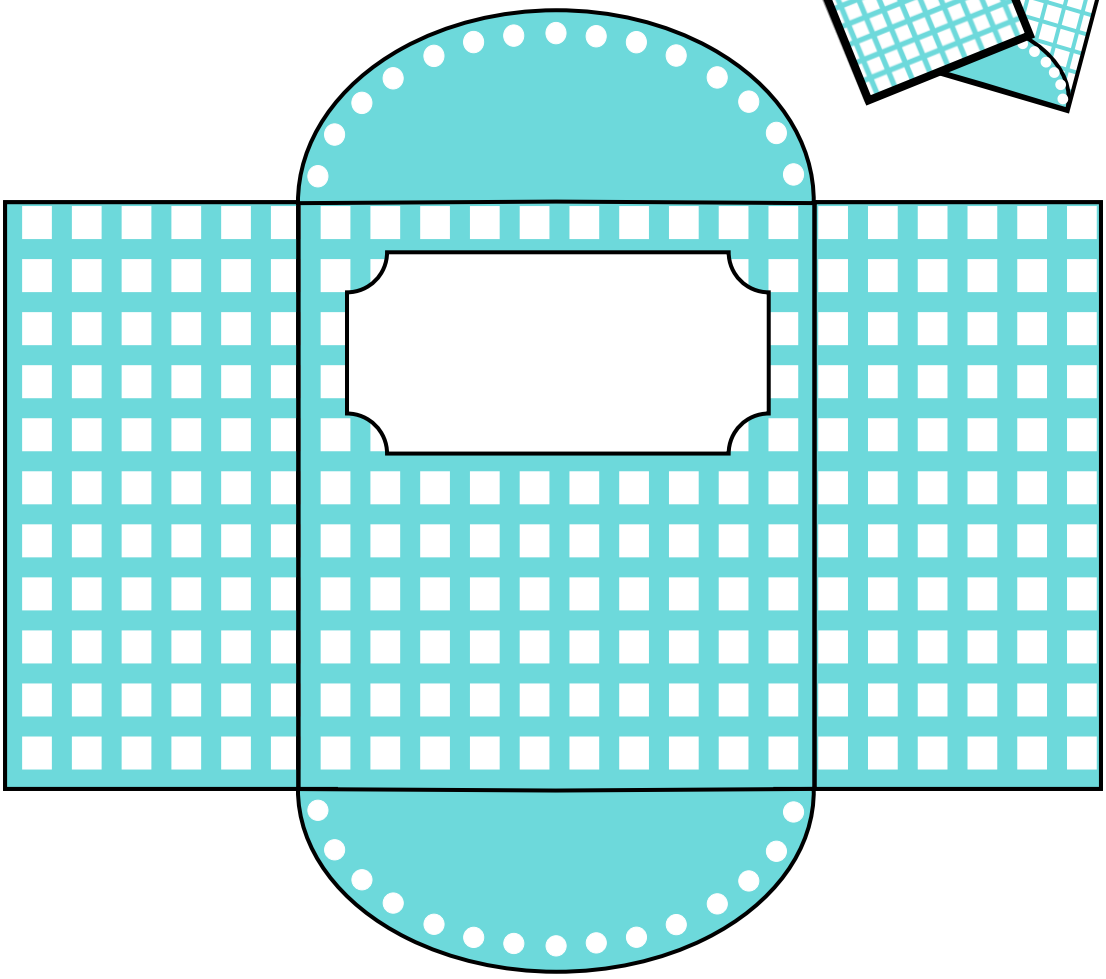


2. Fold 2nd flap and glue to 1st flap.



3. Fold up bottom flap and glue.

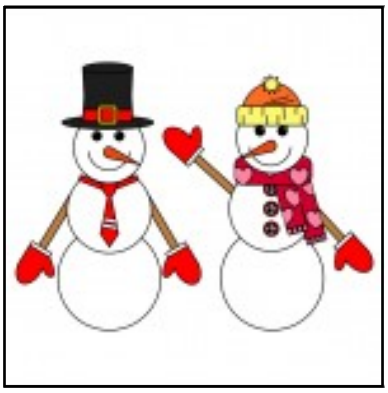


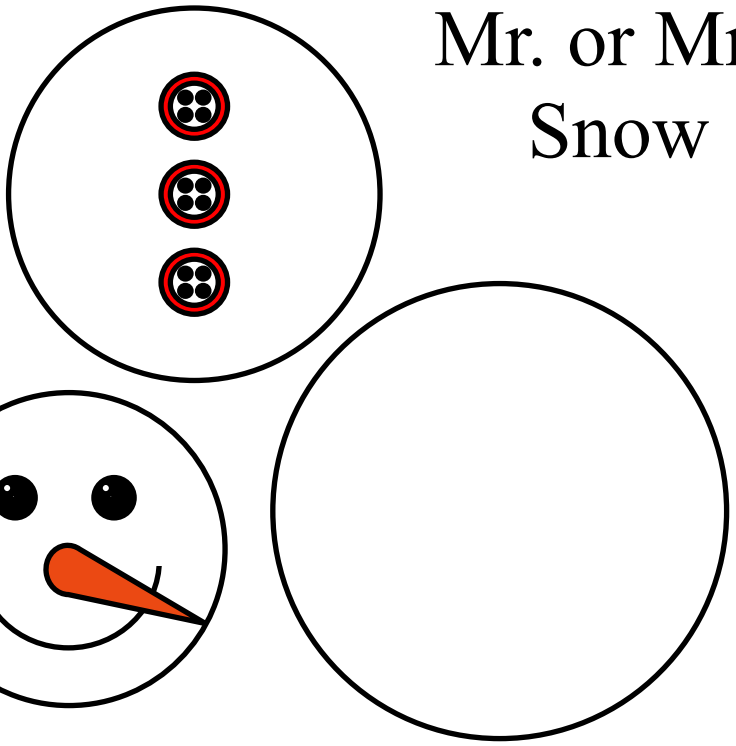


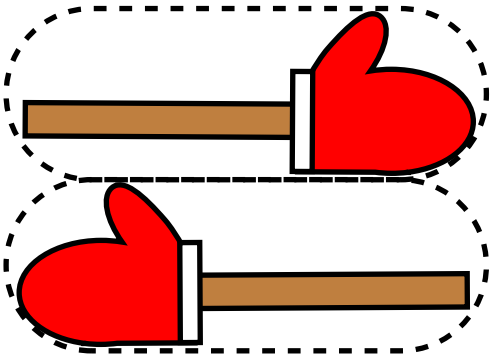
www.SolveLearningDisabilities.com

www.SolveLearningDisabilities.com

Mr. or Mrs. Snow







1) Cut out the three body pieces, arms and desired clothing.
2) Put the bottom circle, and middle circle together to form the body.
3) Choose something to go on your snowman's neck and glue it on to the top of the two circles.
4) Glue the head on.
5) Choose a hat and glue it on top of the snowman's head.
6) Glue on the arms.

Note: If you're snow man is really a snow woman, draw on some eye lashes :-)

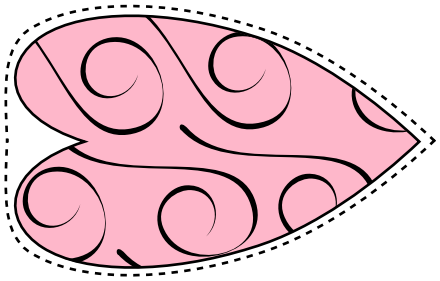
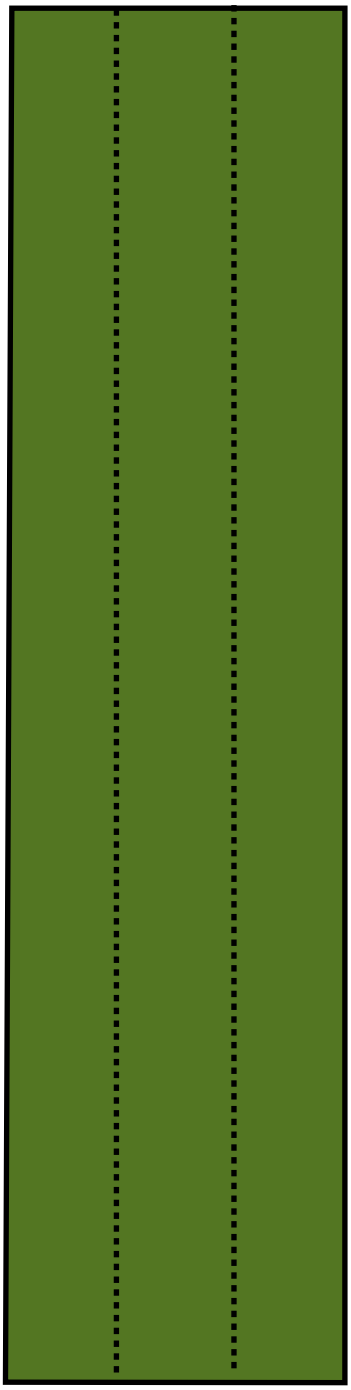
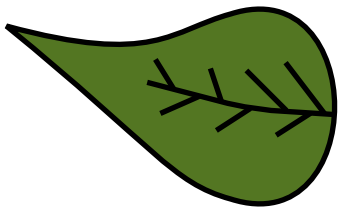
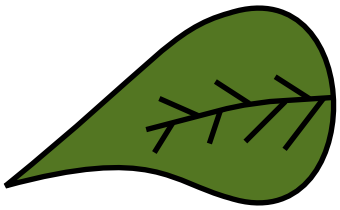
PETALS



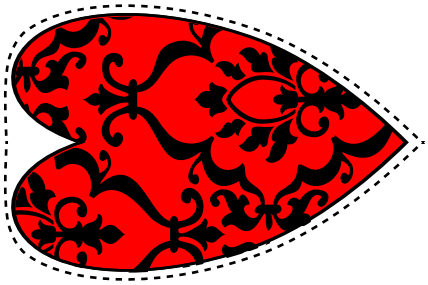


STEM

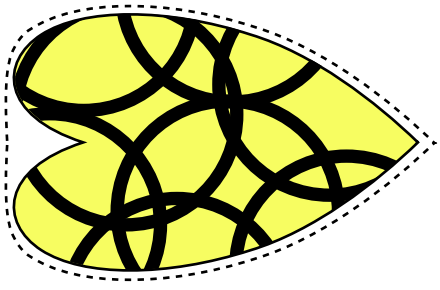




LEAVES



CENTER



Flower Power

www.SolveLearningDisabilities.com

1. Cut out all pieces.
2. Fold both stem sides in at the dotted line and glue.
3. Glue leaves on the stem.
4. Crease heart flowers down the center from point to V of heart.
5. Turn center over and glue heart petals to the back with points facing outward to make the flower head. (See Photo)
6. Glue head to the stem.

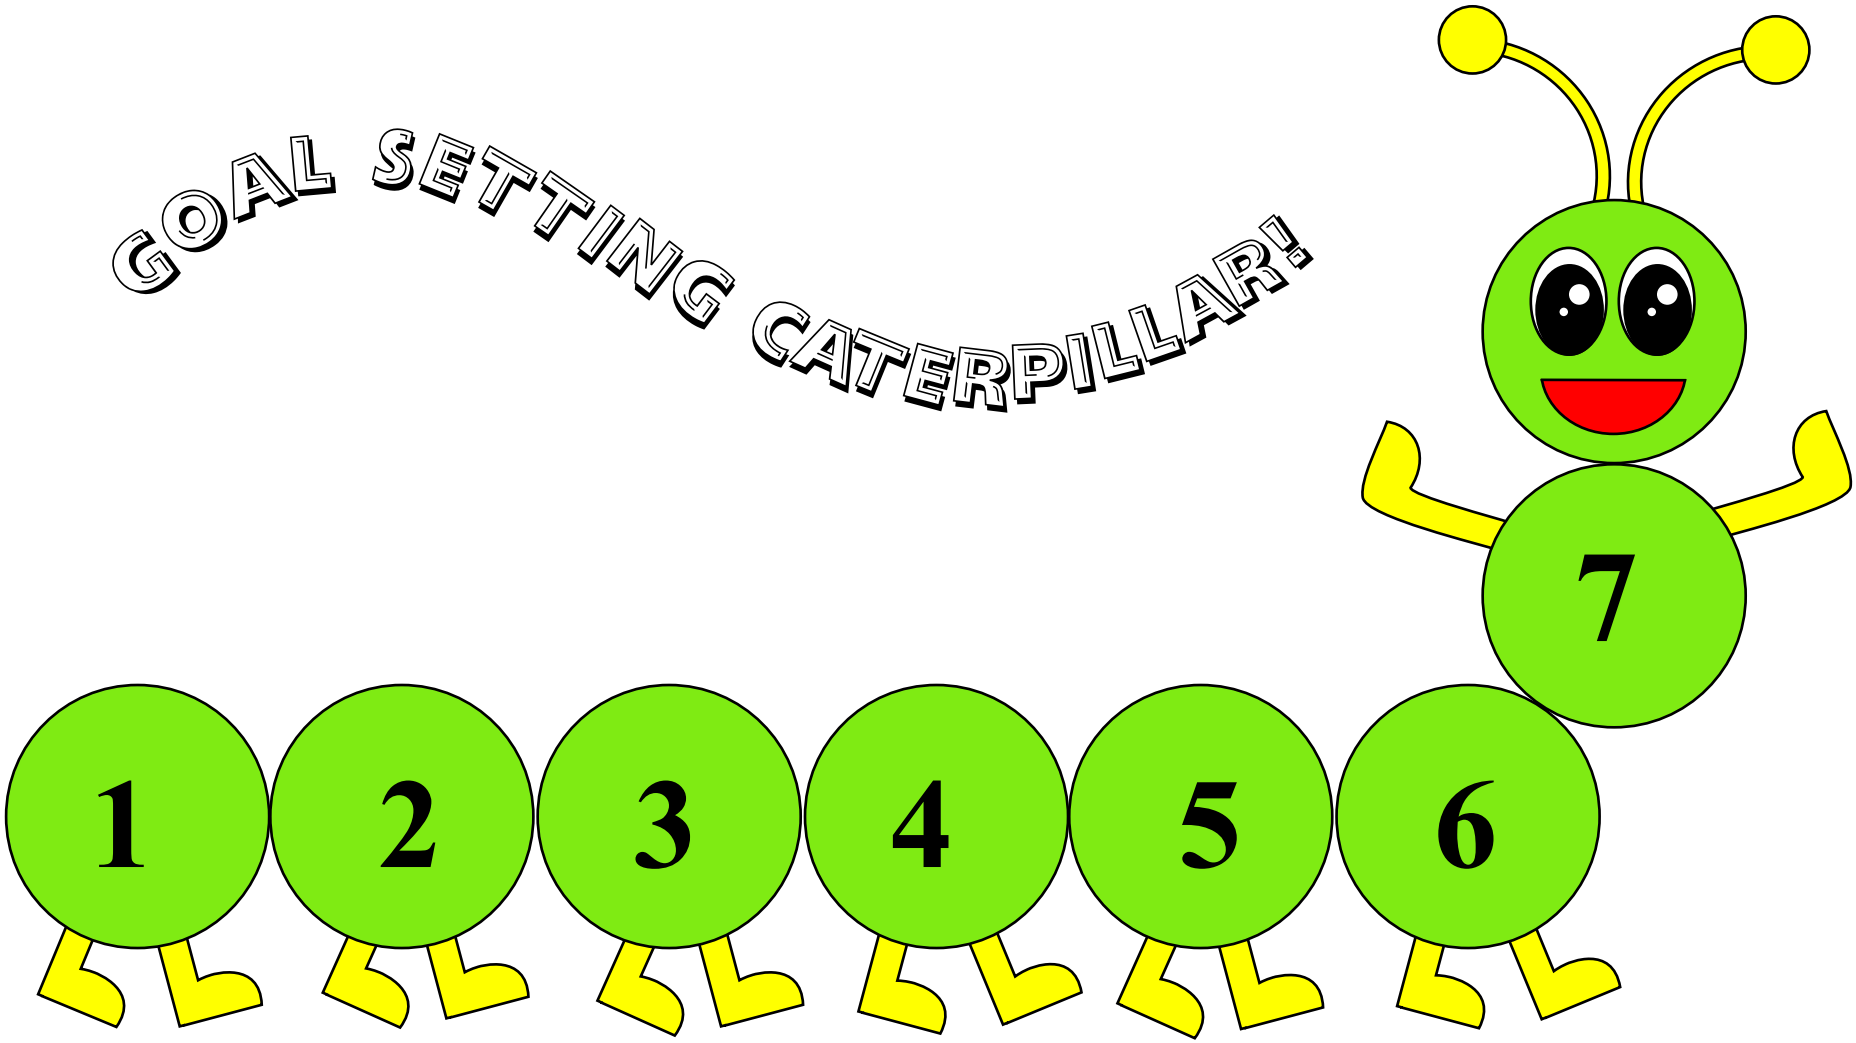
GOAL SETTING CATERPILLAR!



www.SolveLearningDisabilities.com

Goal Setting Caterpillar

1. Cut page to separate the caterpillar from the designed circles.
2. Cut out the designed circles.
3. As goal is reached, let your child glue one circle on until the caterpillar is filled out. (See Below)

www.SolveLearningDisabilities.com
